

## HERMETIC WOOD-BURNING STOVES

## E929 D

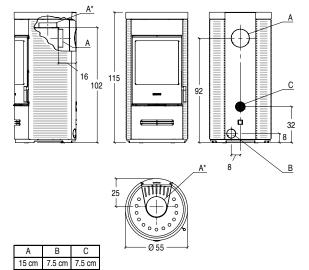

## **TECHNICAL DATA**

 Room heating capacity (min - max) \* 125 - 215  $m^3$  Firebox heat output kW kW Nominal heat output 7,5 Nominal thermal efficiency % > 83 Nominal consumption ka/h 1.8 Standard flue outlet Ø cm 15 • Dimensions W x D x H 55 x 55 x 115 cm

 Stove weight 164 kg · Stove weight incl. HSS 177 kg

## **GENERAL CHARACTERISTICS**

 Cladding Majolica Stove airtight, steel Firebox Aluker® Baffle plate Aluker® Brazier cast iron Ash drawer removable Door steel

steel and silicone Door handle • Standard flue outlet position top or rear \*\*\*\* Air vent front - directional

 Humidifier steel \*\*

self-cleaning and resistant up to 750°C · Ceramic glass

· Glass cleaning system Air Glass Pre-heated primary and secondary air adjustable · Pre-set tertiary air pre-heated • Multifuoco System® with remote control optional Multifuoco System Plus with LCD remote optional control

 Heat Storage System optional Installation \*\*\* wall - corner

- The heating capacity value is calculated based on nominal heat output and refers to rooms with a thermal requirement between 0.060 and 0.035 kW per  $\rm m^3$ .
- Not compatible with HSS kit.
- Please refer to the instruction manual for details regarding the installation type.
- \*\*\*\* The rear flue outlet option is not compatible with the HSS kit.

Data obtained under laboratory conditions using beech wood with moisture content below 20%. Consumptions may vary according to the dimensions and the type of wood used.
