

MP 973

GENERAL TECHNICAL CHARACTERISTICS

Structure: enamelled steel frame, closed firebox
 Baffle: in cast iron
 Firebox: in cast iron
 Brazier: in steel
 Opening: cast iron door with self-cleaning ceramic glass resistant up to 750°C
 Door handle: hide away and detachable
 Functions: LCD remote control and Multicomfort settings additional control unit
 Timer/thermostat: standard, allows split times for daily, weekly and weekend programs
 Flue outlet: rear
 Ash pan: removable
 Fuel: pellet
 Heating: forced ventilation through Multifuoco System® with Dual Power, radiant and natural convection

TECHNICAL DATA

Room heating capacity	m ²	255 - 435
Nominal thermal efficiency	%	83,9
Rated heat output (min-max)	kW	3,3- 15,1
Consumption at rated heat output (min-max)	Kg/h	0,8- 4,2
Power settings		5
Hopper capacity	Kg	60
Flue outlet	Ø cm	8
Fresh air intake (recomm. min sect.)	Ø cm ²	100
Electric supply	Hz	230 - 50
Electric power consumption	W	150
Weight	Kg	180

ON REQUEST

- Remote Control System kit

Laboratory data using beech pellet with calorific potential of 5 kWh/kg. Consumptions may vary according to the dimensions and the type of pellets used.

The availability of models may vary from Country to Country.
